AN CUONG WOOD-WORKING JOINT STOCK COMPANY

STATEMENT OF THE BOARD OF MANAGEMENT

Statement of Responsibility of the Board of Management of the Company in respect of the separate Financial Statements

The Board of Management of An Cuong Wood-Working Joint Stock Company ("the Company") is responsible for preparing and presenting the separate financial statements which give a true and fair view of the separate financial position of the Company as at 30 September 2026, and the results of its separate operations and separate cash flows for Quarter III 2026 then ended. In preparing these separate financial statements, the Board of Management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the separate financial statements on a going-concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the separate financial position of the Company and enable separate financial statements to be prepared which comply with the basis of accounting set out in Note 2 to the separate financial statements. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud or errors.

Approval of the separate Financial Statements

We hereby approve the accompanying separate financial statements as set out on pages 3 to 56 which give a true and fair view of the separate financial position of the Company as at 30 September 2026 and of its separate financial performance and its separate cash flows for Quarter III 2026 in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of separate financial statements.

Users of these separate financial statements of the Company should read them together with the consolidated financial statements of the Company and its subsidiaries (together, "the Group") for Quarter III 2026 in order to obtain full information of the consolidated financial position and results of consolidated operations and consolidated cash flows of the Group.

On behalf of the Board of Management

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
FOR QUARTER III 2026

1 GENERAL INFORMATION

An Cuong Wood-Working Joint Stock Company ("the Company") is a joint stock company established in SR Vietnam pursuant to the initial Business Registration Certificate No. 4602002303 dated 20 September 2006 which was issued by the Department of Planning and Investment of Binh Duong Province and the latest 36th Enterprise Registration Certificate No. 3700748131 dated 8 September 2025.

Shareholders of the Company include NC Viet Nam Investment Joint Stock Company, Whitlam Holding Pte. Ltd., Sumitomo Forestry (Singapore) Ltd. and other shareholders. Details are presented in Note 23.

The Company's shares are listed in Ho Chi Minh City Stock Exchange ("HOSE") with the ticker symbol ACG.

The principal activity of the Company is to manufacture and trade wooden household, industrial wooden items, artificial boards, interior decoration, kitchen equipment, and other wooden related products; provide installation services.

The normal business cycle of the Company is within 12 months.

As at 30 September 2026 and 31 December 2025, the Company had two direct subsidiaries, one associate and one indirect subsidiary. Details are as follows:

Name	Location	Principal activity	30.9.2026		31.12.2025	
			Owner ship (%)	Voting right (%)	Owner ship (%)	Voting right (%)
Direct subsidiaries						
Malloca Vietnam Company Limited	Ho Chi Minh City	Trade Malloca brand kitchen appliances	100	100	100	100
An Cuong Dong Nai Wood - Working Joint Stock Company	Dong Nai City	Manufacture and trade wooden products	65	65	87	87
Indirect subsidiary						
AConcept Vietnam Company Limited (*)	Ho Chi Minh City	Wholesale and retail of interior and interior decor	100	100	100	100
Associate						
Thang Loi Homes Joint Stock Company	Tay Ninh Province	Trade real estate and residential projects	25.5	25.5	25.5	25.5

(*) The indirect subsidiary is a subsidiary of Malloca Vietnam Company Limited.

As at 30 September 2026, the Company had 2,548 employees (as at 31 December 2025: 2,393 employees).

Due to the first-time adoption of the new Accounting system (Note 2.2), the Board of Management has restated the comparative figures to conform with the current period's presentation (Note 35).

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of separate financial statements

The separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of separate financial statements in Vietnam. The separate financial statements have been prepared under the historical cost convention.

The accompanying separate financial statements are not intended to present the separate financial position and results of separate operations and separate cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

Separately, the Company has also prepared consolidated financial statements of the Company and its subsidiaries (together, "the Group") in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of consolidated financial statements. In the consolidated financial statements, subsidiary undertakings, which are those companies over which the Group has the power to govern the financial and operating policies, have been fully consolidated.

Users of these separate financial statements of the Company should read them together with the consolidated financial statements of the Company and its subsidiaries (together, "the Group") for Quarter III 2026 in order to obtain full information of the consolidated financial position and results of consolidated operations and consolidated cash flows of the Group.

2.2 Significant changes in the Company's accounting policies applied

First-time adoption of the new Accounting system

On 27 October 2025, the Ministry of Finance issued Circular 99/2025/TT-BTC ("Circular 99") providing guidance on the corporate accounting system, replacing Circular 200/2014/TT-BTC, effective from 1 January 2026 and for fiscal years beginning on or after 1 January 2026. Therefore, the Company has applied Circular 99 from 1 January 2026 as the basis for preparing these financial statements.

2.3 Reporting period

The Company's annual reporting period is from 1 January to 31 December. The separate financial statements for Quarter III 2026 are prepared for the three-month period from 1 July to 30 September and the nine-month period from 1 January 2026 to 30 September 2026.

2.4 Currency

The separate financial statements are measured and presented in Vietnamese Dong ("VND"), which is the Company's accounting currency.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 Exchange rates

Transactions arising in foreign currencies are translated at exchange rates prevailing at the transaction dates. The actual exchange rate at the transaction date is the average of the buying and selling transfer exchange rates quoted by the commercial bank(s) with which the Company regularly transacts. Foreign exchange differences arising from these transactions are recognised in the separate income statement.

Monetary assets and liabilities denominated in foreign currencies at the date of the separate statement of financial position are translated at the average of the buying and selling transfer exchange rates quoted by the commercial bank with which the Company regularly transacts at that date. Foreign currencies deposited in banks at the date of the separate statement of financial position are translated at the average of the buying and selling transfer exchange rates quoted by the commercial bank with which the Company maintains its foreign currency accounts at that date. Foreign exchange differences arising from these translations are recognised in the separate income statement.

2.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks and other short-term deposits with an original maturity of three months or less. Restricted and unrestricted cash and cash equivalents are separately classified and presented under different line items in the separate financial statements.

2.7 Receivables

Receivables are initially recognised at cost. Receivables represent trade receivables from customers arising from sales of goods and rendering of services, or non-trade receivables from others not arising from sales of goods and rendering of services. Provision for doubtful debts is made for receivables that are overdue, or that are not yet due but for which there is objective evidence indicating that the debtor is unlikely or unable to settle part or all of the outstanding balance.

For receivables that are past due, the overdue period is determined based on the original contractual repayment terms, without taking into account any subsequent debt extensions agreed between the parties. The provision for doubtful debts is made at the following rates:

- 30% for receivables overdue from 6 months to less than 1 year;
- 50% for receivables overdue from 1 year to less than 2 years;
- 70% for receivables overdue from 2 years to less than 3 years;
- 100% for receivables overdue for 3 years or more.

For receivables not yet past due, but for which there is evidence that part or all of the receivable may not be recoverable, the Company estimates the irrecoverable amount and recognises a corresponding provision for doubtful debts.

Receivables are classified into short-term and long-term receivables in the separate statement of financial position based on the remaining period as at the end of the reporting period.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.8 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method and includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct expenditure and production overheads based on normal levels of operating activity. Net realisable value is the estimated selling price in the normal course of business, less the estimated costs of completion and selling expenses.

The Company applies the perpetual system for inventories.

The lower of net realisable value and cost is recognised as provision for decline in value of inventories. Provision is made, where necessary, for obsolete, slow-moving and defective inventory items. The difference between the provision of this period and the provision of the previous period are recognised as an increase or decrease of cost of goods sold in the accounting period.

2.9 Investments

(a) Investments held to maturity

Investments held to maturity are investments which the Company has a positive intention and ability to hold until maturity.

Investments held to maturity include term deposits and lendings. Those investments are initially accounted for at cost of acquisition plus other expenditures directly attributable to the investment (if any). Subsequently, financial income arising from such investments, including interest income from term deposits, loans, is recognised as an increase in the carrying amount of the respective investments. Meanwhile, the Board of Management reviews all outstanding investments to determine the amount of the provision to recognise at the period end.

Provision for diminution in value of investments held to maturity is made when there is evidence that the investment is uncollectible in whole or in part. Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

Investments held to maturity are classified into short-term and long-term investments held to maturity in the separate statement of financial position based on the remaining period as at the end of the reporting period.

(b) Investments in subsidiaries

Subsidiaries are all entities whose financial and operating policies the Company has the power to govern in order to gain future benefits from their activities generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.9 Investments (continued)

(b) Investments in subsidiaries (continued)

Investments in subsidiaries are initially recorded at costs of acquisition plus other expenditure directly attributable to the investment. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

(c) Investments in an associate

Associate is an investment that the Company has significant influence but not control over and the Company would generally have from 20% to less than 50% of the voting rights of the investee.

Investment in associate is initially recorded at cost of acquisition including purchase cost or capital contribution value plus other expenditures directly attributable to the investment. Subsequently, the Board of Management reviews all outstanding investments to determine the amount of provision to recognise at the period end.

(d) Investments in other entities

Investment in other entities are investments in equity instruments of other entities without controlling rights or co-controlling rights, or without significant influence over the investee. These investments are accounted for initially at cost. Subsequently, the Board of Management reviews all outstanding investments to determine amount of provision to recognise at the period end.

(e) Provision for investments in subsidiaries, associate and other entities

Provision for investments in subsidiaries, associate and other entities is made when there is a diminution in value of the investments at the period end.

Provision for investments in subsidiaries and associate is calculated based on the loss of investees. Provision for investments in other entities is calculated based on market value if market value can be determined reliably. If market value cannot be determined reliably, the provision is calculated similarly to provision for investments in subsidiaries and associate.

Changes in the provision balance during the accounting period are recorded as an increase or decrease in financial expenses. A reversal, if any, is made only to the extent the investment is restored to its original cost.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.10 Fixed assets

Tangible and intangible fixed assets

Fixed assets are assets held for use in the operating and production of the Company which qualify for recognition as a fixed assets, and are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes any expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the separate income statement when incurred in the period.

Depreciation and amortisation

Fixed assets are depreciated and amortised using the straight-line method so as to write off the depreciable amount of the fixed assets over their estimated useful lives. Depreciable amount equals to the historical cost of fixed assets recorded in the separate financial statements minus (-) the estimated disposal value of such assets. The principal annual rates of each asset class are as follows:

Plant and buildings	3% - 50%
Machinery	8% - 50%
Motor vehicles	8% - 33%
Office equipment	13% - 33%
Land use rights	3%
Software	3% - 50%
Other fixed assets	6% - 50%

Land use rights comprise land use rights granted by the State for which land use fees are collected and prepaid land use rights obtained under land rental contracts which are effective before the effective date of land law 2003 (ie. 1 July 2004) and which land use right certificates are granted.

Definite land use rights are stated at costs less accumulated amortisation. Costs of land use rights consists of its purchased prices and any directly attributable costs in obtaining the land use rights. Land use rights are amortised using the straight-line basis over the terms of the land use right certificates.

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the separate income statement.

Construction in progress

Construction in progress represents the cost of assets in the course of installation or construction for production, rental or administrative purposes, or for purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to newly construct, repair and maintain, upgrade, renew or equip the projects with technologies as construction costs; costs of tools and equipment; project management expenditure; construction consulting expenditure; and capitalised borrowing costs for qualifying assets in accordance with the Company's accounting policies. These costs will be transferred to the historical cost of the resulting fixed assets when such assets are completed and brought to the condition and are depreciated when they are capable of operating in the manner intended by the Company.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.11 Leased assets

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to the separate income statement on a straight-line basis over the term of the lease.

Assets held under finance leases are capitalised in the separate statement of financial position at the inception of the lease at the fair value of the leased assets or, if lower, at the net present value of the minimum lease payments. The principal amount included in future lease payments under finance leases are recorded as a liability. The interest amounts included in lease payments are charged to the separate income statement over the lease term at an applicable interest rate on the remaining balance of the finance lease liability.

2.12 Investment properties

Investment property is property held by the owner or by the lessee of a finance lease to earn rentals or for capital appreciation, rather than for use in the production or operation or for administrative purposes of the Company; or sale in the ordinary course of business.

The historical cost of an investment property represents the amount of cash or cash equivalents paid or the fair value of another consideration given to acquire the investment property at the time of its acquisition or completion of construction. Expenditure incurred subsequently which has resulted in an increase in the expected future economic benefits from the use of investment properties can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the separate income statement when incurred in the period.

Depreciation

No depreciation is recorded for investment properties held for capital appreciation. Investment properties held to earn rental income are depreciated on a straight-line basis over their estimated useful lives. The principal annual depreciation rate applied is as follows:

Commercial premises	4%

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of investment properties and selling costs and are recognised as income or expense in the separate income statement.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.13 Deferred expenses

Deferred expenses represent actual costs incurred that associated with the operating results of multiple accounting period, including short-term and long-term deferred expenses on the separate statement of financial position. Short-term deferred expenses represent the carrying amount of deferred expenses with an allocation period 12 months or less, or within one normal operating cycle from the date of initial recognition. Long-term deferred expenses present the carrying amount of expenses incurred with an expected allocation period exceeding 12 months or beyond one normal operating cycle from the date of initial recognition. Deferred expenses are recorded at historical cost and allocated on a straight-line basis over estimated useful lives.

Prepayments for land rental contracts which are effective after the effective date of the land law 2003 (ie. 1 July 2004) or which land use right certificates are not granted are recorded as expenses to be allocated and allocated using the straight-line method over the prepaid lease term.

2.14 Payables

Payables are initially recognised at cost. Classifications of payables are based on their nature as follows:

- Trade accounts payable are trade payables arising from purchase of goods and services; and
- Other payables are non-trade payables and payables not relating to purchases of goods and services.

Payables are classified into short-term and long-term payables in the separate statement of financial position based on the remaining period as at the end of the reporting period. However, payables that the Company does not have the right to defer the settlement of at any time within 12 months from this date are classified as short-term liabilities.

2.15 Borrowings and finance lease liabilities

Borrowings and finance lease liabilities include borrowings from banks, finance leasing companies and individuals.

Borrowings and finance lease liabilities are classified into short-term and long-term borrowings and finance lease liabilities in the separate statement of financial position based on their remaining maturities as at the end of the reporting period. However, borrowings and finance lease liabilities that the Company does not have the right to defer the settlement of at any time within 12 months from this date are classified as short-term liabilities.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.15 Borrowings and finance lease liabilities (continued)

Borrowing costs that are directly attributable to the construction or production of any qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use. In respect of general-purpose borrowings, a portion of which used for the purpose of construction or production of any qualifying assets, the Company determines the amount of borrowing costs eligible for capitalisation by applying a capitalisation rate to the weighted average expenditure on the assets. The capitalisation rate is the weighted average of the interest rates applicable to the Company's borrowings that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. Other borrowing costs are recognised in the separate income statement when incurred.

2.16 Accrued expenses

Accrued expenses include liabilities for goods and services received in the period but not yet paid for due to pending invoice or insufficient records and documents. Accrued expenses are recorded as expenses in the reporting period.

2.17 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provision is not recognised for future operating losses.

Provisions are measured at the level of the expenditures expected to be required to settle the obligation. If the time value of money is material, provision will be measured at the present value using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a financial expense. Changes in the provision balance during the accounting period are recorded as an increase or decrease in operating expenses.

2.18 Provision for severance allowances

In accordance with Vietnamese labour laws, employees of the Company who have worked regularly for full 12 months or longer are entitled to a severance allowance. The working period used for the calculation of severance allowance is the period during which the employee actually works for the Company less the period during which the employee participates in the unemployment insurance scheme in accordance with the labour regulations and the working period for which the employee has received severance allowance from the Company.

The severance allowance is accrued at the end of the reporting period on the basis that each employee is entitled to half of an average monthly salary for each working year. The average monthly salary used for calculating the severance allowance is the employee contract's average salary for the six-month period prior to the date of the separate statement of financial position.

This allowance will be paid as a lump sum when employees terminate their labour contracts in accordance with current regulations.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.19 Deferred revenue

Deferred revenue includes short-term and long-term deferred revenues on the separate statement of financial position. These deferred revenues recognised the amounts received in advance from leasing the roof of the Company's factory for the installation and operation of solar panels and supporting systems, and the operation of rooftop solar power projects, under a 20-year lease term. The Company records deferred revenue for the future obligations that the Company has to fulfil. Deferred revenue recognised as revenue in the separate income statement to the extent that recognition criteria have been met.

2.20 Owners' capital

The contributed capital received from the shareholders of the Company is recorded according to the actual amount of contribution, not on the amount the owners have committed to contribute.

Owners' capital reflects the total par value of shares, including ordinary shares and preference shares, that are classified as equity and recorded in the Enterprise Registration Certificate.

Capital surplus is the difference between the par value and the issue price of shares (including cases of re-issuing repurchased shares) and may be a positive premium (if the issue price is higher than par value) or a negative premium (if the issue price is lower than par value).

Repurchased shares bought before the effective date of the Securities Law (ie. 1 January 2021) are shares issued by the Company and bought back by itself, but these are not cancelled and may be re-issued subsequently in accordance with the Law on Securities. Repurchased shares bought after 1 January 2021 will be cancelled and adjusted to reduce owners' equity.

Undistributed earnings record the Company's results profit after CIT at the reporting date.

2.21 Appropriation of net profit

The Company's dividends are recognised as a liability in the Company's separate financial statements in the period in which such dividends are approved in which the Company no longer has the discretion to avoid the obligation to pay dividends to its shareholders.

Profit after CIT could be distributed to shareholders after appropriation to other funds in accordance with the Company's charter and Vietnamese regulations.

The Company's funds are as below:

(a) Bonus and welfare fund

The bonus and welfare fund is appropriated from the Company's profit after CIT and subject to Shareholders' approval in the General Meeting of Shareholders. This fund is presented as a liability in the separate statement of financial position. This fund is used for the purpose of pecuniary rewarding and encouragement, common benefits and improvement of employees' benefits.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.21 Appropriation of net profit (continued)

(b) Investment and development fund

The investment and development fund is appropriated from profit after CIT of the Company and approved by Shareholders in the General Meeting. This fund is used for the Company's expansion of its operation or in-depth investments.

(c) Charity fund

The fund is set for providing financial support for the remediation of incidents caused by natural disasters, fires, epidemics, accidents, and for individuals or groups in difficult or disadvantaged circumstances requiring social assistance. The fund operates on a non-profit basis.

2.22 Revenue recognition

(a) Revenue from sales of goods

Revenue from sale of goods is recognised in the separate income statement when all five (5) following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods.

Revenue is recognised in accordance with the "substance over form" principle and allocated to each sales obligation. If the Company gives promotional goods to customers associated with their purchases, the Company allocates the total considerations received between goods sold and promotional goods. The cost of promotional goods is recognised as cost of sales in the separate income statement.

(b) Revenue from rendering of services

Revenue from rendering of services is recognised in the separate income statement when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from the rendering of services is only recognised when the four (4) following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the reporting date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.22 Revenue recognition (continued)

(c) Interest income

Interest income is recognised on the basis of the actual time and interest rates for each period when both conditions below are simultaneously satisfied:

- It is probable that economic benefits will be generated; and
- Income can be measured reliably.

(d) Profit distributed

Profit distributed is recognised when the Company has established the receiving right from investees.

2.23 Sales deductions

Sales deductions include trade discounts, sales returns and sales allowances. Sales deductions incurred in the same period of the related revenue from sales of products, goods and rendering services are recorded as deduction of revenue of that period.

Sales deductions for sales of products, goods or rendering services which are sold in the period but are incurred after the reporting date but before the issuance of the separate financial statements are recorded as deduction of revenue of the period.

2.24 Cost of goods sold and services rendered

Cost of goods sold and services rendered are cost of finished goods, merchandise, materials sold or services rendered during the period, and recorded on the basis of matching with revenue and on a prudence basis.

2.25 Financial expenses

Financial expenses are expenses incurred in the accounting period for financial activities including expenses or losses relating to financial investment activities; expenses of borrowing; provision for diminution in value of investments; losses incurred on selling foreign currencies; losses from foreign exchange differences; and payment discounts.

2.26 Selling expenses

Selling expenses represent expenses that are incurred in the process of selling products, goods, and providing services.

2.27 General and administration expenses

General and administration expenses represent expenses that are incurred for administrative purposes.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.28 Current and deferred income tax

Income taxes includes all income taxes which is based on taxable profits. Income tax expense comprises current income tax expense and deferred income tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current period taxable profits at the current period tax rates. Current and deferred tax should be recognised as an income or an expense and included in the profit or loss of the period, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different period, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the separate financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the financial period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the reporting date.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

2.29 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Company, including holding companies, subsidiaries, associate and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the Company, key management personnel, including Chairman, members of the Company's Board of Directors, the General Director and members of the Company's Board of Management and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering its relationships with each related party, the Company considers the substance of the relationships, not merely the legal form.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

2.30 Critical accounting estimates

The preparation of separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and applicable regulations on preparation and presentation of separate financial statements requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during the accounting period.

The areas involving significant estimates and assumptions are as follows:

- Estimated useful life of fixed assets (Note 2.10 and 11);
- Provision for short-term investments held to maturity (Note 4(a)), estimation of provision for doubtful debts (Note 8) and provision for decline in value of inventories (Note 9);
- Recognition of deferred tax assets for difference between tax base and accounting base (Note 22).

Such estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that assessed by the Board of Management to be reasonable under the circumstances.

	2,290,778,972,597	

In addition, the Company pledged VND288 billion of these investments as collateral for bank loans (Note 20(b)).

(**) As at 30 September 2026, the lending accounting for at least 10% of the total lending balance was the lending to Novareal Joint Stock Company, with a carrying amount of VND390,397,131,573. The lending arose from the conversion of a deposit paid for the purchase of real estate under the Novaworld Phan Thiet project, as stated in the "Confirmation of option selection" dated 20 April 2023, whereby the Company declined to exercise its option to purchase the real estate under the previous agreements.

As at the date of these separate financial statements, a portion of this lending is overdue, and the parties are in the process of negotiating recovery plans and arrangements for the overdue amount. In accordance with prevailing regulations and in line with the prudence principle, the Company has assessed and made a provision of VND195,200,000,000 for this lending.

32 CORPORATE INCOME TAX ("CIT")

The statutory CIT rate currently applicable to the Company is 20% of taxable profits.

The tax returns filed by the Company are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the separate financial statements could change at a later date upon final determination by the tax authorities.

The CIT on the Company's accounting profit before tax differs from the theoretical amount that would arise using the applicable tax rate as follows:
